WE ARE AMS

We deliver Maintenance, Repair, and Overhaul (MRO) and integrated solutions.

ABOUT US

Over the last two decades, AMS has successfully delivered Maintenance, Repair, and Overhaul (MRO) and integrated solutions to support Governments, Aid Agencies, and Commercial organizations across Europe, Asia, Africa, and the Middle East. Our international portfolio provides Maintenance Repair & Overhaul Supply Chain Services and Integrated Facilities Management in the world's most remote and challenging environments.

We are proud to be recognized as a leading solutions provider and dependable partner, managing complex operations from start to finish. Our passion and commitment to integrate our services with local knowledge and culture ensures mission success for our clients and builds positive sustainable growth in the communities in which we operate.

**WE PROVIDE. WE DELIVER.
WE ARE COMMITTED.
WE ARE AMS.**

CORE SERVICES

FAST. FLEXIBLE. SUSTAINABLE.

Established in 2001, AMS have over 20 years' experience as an industry leader specializing in the field of integrated vehicle Maintenance, Repair and Overhaul programs. We have the credibility - backed-up by a proven history as being a partner of choice to mobilize, manage and operate some of the largest, complex MRO projects in the world, including end-to-end supply chain and facilities management.

Our supply chain teams have developed strong and robust partnerships to efficiently manage connections down to the last mile. AMS' global geographical reach to challenging locations uses real-time tracking to ensure transparency from beginning to end.

AMS' experience and dedication has allowed us to become a leading solutions provider, integrating technology with local knowledge and culture. This integrated approach produces real time data that can be translated into action, creating a positive impact on organizations, people and their communities.

We focus on hiring locally, this allows us to create long-term sustainable employment opportunities and provide a complete employee life cycle. These innovative programs help people unlock their full potential while also enhancing your operational capabilities.

HISTORY

MAINTENANCE REPAIR & OVERHAUL

AMS is a leading provider of Maintenance, Repair & Overhaul (MRO) services to Governments, Aid Agencies, and Commercial organizations for over 20 years.

With robust solutions and a proven track record, we offer effective and reliable services to meet diverse operational requirements. AMS' holistic approach and systematic processes for MRO programs ensures a well-structured and comprehensive maintenance program. Organizations can ensure their vehicles are prepared for missions, minimized downtime, and maximized lifespan of their assets.

We synchronize, manage, and deliver your requirements by using innovative supply channels and integrating solutions across software, supply chain and life support functions to deliver essential services on time and within budget. Partnering with AMS means gaining access to a trusted and reliable MRO service provider with a proven commitment to excellence.

OUR SERVICES INCLUDE:

- Asset Management & Maintenance
- Field Level Support (Level 1 & 2)
- Depot Level Support (Level 3 & 4)
- Complete Rebuild of Assemblies, Subassemblies and Principal End Items
- Vehicle Reset & Upgrades
- Modifications and Auxiliary System Integrations
- System Testing and Calibration
- Full Inventory & Supply Chain Management
- Technical Training & Mentorship
- Operations & Facilities Management

CASE STUDY

MAINTENANCE REPAIR & OVERHAUL OPERATIONS | TRAINING & MENTORSHIP | O&M | FACILITY MANAGEMENT

THE CHALLENGE

To design, build and operate facilities across Afghanistan for managing and maintaining over \$3 billion USD worth of assets.

National Maintenance Strategy-Ground Vehicle Support (NMS-GVS) Afghanistan was a United States Government funded program where AMS provided fleet maintenance support to the Afghan National Army (ANA) and Afghan National Police (ANP). The NMS-GVS contract was significant in scale, scope, and complexity where AMS provided maintenance services to over 130,000 vehicles.

SOLUTION

We constructed maintenance facilities and delivered life support services in less than 90 days across 34 provinces in Afghanistan.

We provided:

- Vehicle maintenance facilities and workshops
- Warehousing
- Prime power generation
- Fully operated kitchens and dining facilities (DFAC)
- Ensuite accommodation for 500 staff
- Laundry services
- Morale, welfare and recreation (MWR) facilities

SUCCESS

We established relationships with local businesses and suppliers, building trust with the local community and resulting in cost savings of over \$100 million USD during the contract.

Our innovative methodologies reduced costs, eliminated fraud, empowered the local community, and supported sustainable economic growth in the region.

OUR APPROACH TO AN INTEGRATED UNDERSTANDING OF DIVERSE PROGRAMS, SERVICES, SYSTEMS AND COMMUNITIES IS...

- Rigorous project management with robust tools and processes facilitated by our experienced managers. Providing efficiency in day-to-day operational activities and resulting in the success of our workflow executions.
- Process flexible planning integrated into our systems and strategies maximizing interoperability.
- Digital innovation improving and streamlining planning and operational practices.
- Optimizing supply chain management in terms of cost scheduling, quality control and logistics, increasing our flexibility and reliability.

SUPPLY CHAIN SERVICES

Our Supply Chain team has extensive experience providing international logistics and local transportation using land, sea and air to move cargo and assets with complete visibility and real time updates.

Your mission will benefit from our bespoke solutions, partnerships and diverse global supplier base, with strategically positioned logistics and distribution hubs.

We plan, execute and monitor all supply chain activities with the objective of creating added value and improving operational performance in challenging and remote locations. We integrate solutions and work with the communities to procure local sources wherever possible. This approach reduces costs and builds sustainable supply chains.

OUR SERVICES INCLUDE:

- Procurement
- Warehouse Management
- Logistics & Transportation
- Import / Export
- Multi Modal Transport (MMT)
- Chartered Transport Flight

CASE STUDY

LOGISTICS AND TRANSPORT | PROCUREMENT | WAREHOUSE MANAGEMENT

THE CHALLENGE

To solve the problem of spiraling costs across a US Government fleet of over 7,500 vehicles in Afghanistan.

SOLUTION

We designed and built proprietary software to manage rental operations, bringing transparency and accountability to the entire program. Supported by these systems, a solid supply chain was established, and the program was able to maintain fleet availability above 95%.

SUCCESS

After constructing facilities across four locations, we successfully established a Transportation Motor Pool which documented the existing fleet and its condition, replaced costly leases with a fleet of new vehicles and managed the supply chain.

The program was seamlessly integrated into the US Government's Logistics Civil Augmentation Program (LOGCAP IV) after completion.

LOGICAL CONSOLIDATION OF OPERATIONS OFFERS SIGNIFICANT BENEFITS THAT IMPROVE SERVICES PROVIDED TO OUR CUSTOMERS.

- Cost saving fast logistics.
- Providing end-to-end logistics solutions to achieve customer needs from supplier point of origin to the point of destination.
- Finding alternative solutions with the most cost effective and achievable performance, despite environmental constraints.
- Quality optimizations.
- Implementing price matching bidding and bulk-purchasing strategies.
- Reducing costs through economies of scale.

INTEGRATED FACILITIES MANAGEMENT

OUR SERVICES INCLUDE:

- Accommodation
- Catering
- Cleaning
- Laundry
- Morale, Welfare & Recreation (MWR) Facilities
- Medical Services
- Pest Control
- Retail & Bar
- Grounds Maintenance
- Security

AMS provides your workforce with quality Life Support Services enabling daily operations to run smoothly and maximizing productivity. We create integrated solutions to build a safe, secure and streamlined environment, even in the most remote and severe locations.

Our experience has taught us that while basic necessities are fundamental, it is the additional support services that your employees will value most. That is why our full-service kitchens provide culturally appropriate meals, medical centers provide health and dental support, and recreation facilities allow staf to relax during their downtime. This means you can provide your workforce with a comfortable 'home away from home' environment, so they can get on with the job at hand.

CASE STUDY

ACCOMODATION | CATERING | LAUNDRY | MWR FACILITIES

THE CHALLENGE

To provide life support services for a multi-cultural workforce of over 130 local and international staf in Somalia working on existing contracts.

SOLUTION

A self-contained camp which covered over 10,000 plus square meters and included:

- Accommodation units
- Fully serviced kitchen and dining facility (DFAC)
- MWR facilities
- Wireless internet
- Laundry
- Cleaning
- Maintenance services
- An international security team onsite 24/7, who also operated a secure airport shuttle service.

SUCCESS

We successfully served over 870,000 meals to camp occupants. Our expertly trained facility management staf provided continuous operations across all support services.

COST OPTIMIZATION WAS ACHIEVED THROUGH OUR:

- Strategy to maintain a labor pool.
- Automated customer focused work order management which increased efficiencies throughout the preventative maintenance schedule.
- Implemented a swipe card system compatible with the customer's communication and information systems to automate tracking, reporting and validate services.

SECTORS

We deliver integrated solutions encompassing infrastructure, technical, and professional services to governments, aid agencies and commercial organizations. We enable our customers to focus on their core business by combining best practices in international standards and cultural integration.

Our services include customized camp facilities and infrastructure services, supply chain and procurement, software and data solutions, and more. We have a solid reputation for delivering customer support every day, particularly in the most remote and difficult environments. Because of our experience, we understand what it takes to face any challenge and find a solution.

Our strength is building cultural bridges by recruiting and training local staf. We help to create a positive impact in the communities in which we operate.

GOVERNMENT

We serve governments and intergovernmental agencies that rely on us to deliver consistently. We provide a broad variety of services for thousands of personnel and assets on the ground:

- Rapid mobilization
- Life support
- Last mile supply and logistics
- Construction
- Environmental services
- Real time software solutions

COMMERCIAL

Our end-to-end integrated solutions, together with years of first-hand experience, make us the right partner to ensure continuity of operations no matter what the circumstances or environment brings. We have a proven track record of success affecting long-term outcomes. Our approach to providing better planning and organization as well as more visibility and control over the flow of materials and services aims to streamline your costs and operations.

Our areas of expertise include:

- Camp construction and infrastructure
- Operations and maintenance (O&M)
- Water supply
- Retail and leisure services
- Power generation
- Security
- Facilities management
- Catering
- Waste management
- Cleaning
- Telecommunications
- Fire protection

AID AND DEVELOPMENT AGENCIES

After two decades of working in conflict and post-conflict zones, we have honed our skills in these demanding environments. We recognize and support the critical work of aid and development agencies, as well as their missions to maintain peace and security, drive and expand sustainable development, combat instability and improve people's living standards.

AMS provides solutions in situations requiring emergency response, mobilization to disaster areas and war zones, and in regions where long-term intervention is needed. We construct, equip, and manage temporary accommodation and provide all necessary facilities and services including power, food, water, medical, waste management, and supply chain.

We foster trust and respect in the local community by employing local people and suppliers and promoting long-term development. We help the mission in transitioning communities from a state of conflict and instability to one of peace and stability.
